

District Long-Term Facility Planning Task Force

Charge Statement

The school board charges the District 197 facility planning task force with the following:

1. Make recommendations to the school board for long-range facility planning that are sensitive to taxpayer burden and take into consideration community values, desired functionality, aesthetics, school pride, overall brand development, and promote Henry Sibley High School as our flagship program.
2. Use updated enrollment projections and recommend targets for market capture rates.
3. Assist in prioritizing among the needs and interests articulated in the District Strategic Framework, including early learning, personalized learning, technology integration, career and college readiness, co-curricular activities, and other special programs.
4. Develop recommendations to the school board that consider total cost of ownership and creatively utilizes a range of funding options for capital projects.
