

Parenting Teens: What Works?!

**A presentation by Shannon Bailey
Adolescent Health Coordinator
Dakota County Public Health Department**

**Monday, March 22, 7:00-8:00p.m.
Friendly Hills Middle School**

Parents are the super protectors! You, the parent, will have the most influence on your teen's decisions and actions during their adolescence. Research shows us that teens need (and secretly want) your help and guidance. Participants will learn what research tells us really works to grow healthy teens. Learn how to build your teen's safety net. Parents can't do it alone. Learn how to connect with other parents to raise healthy teens.

Please join other parents and guardians for this informative event sponsored by the FHMS PTA. Childcare will be available.
